## Q. How is a doctor chosen?

A. The results are based on a 360-degree analysis of potential surgeons, incorporating as much relevant information as possible in as objective a manner as possible. The selection process is focused on naming the top surgeons for 10 plastic surgery procedures. The goal is to help patients find the most appropriate surgeon for their needs.

### Methodology

There are approximately 500 plastic surgeons practicing in the state of New Jersey. The goal of this process is to identify the best of those in each of 10 procedure categories. Leflein Associates, a locally owned research firm in Ringwood, New Jersey, was commissioned to conduct the independent study. Research was conducted between November 2017 and April 2018.

#### Specific selection criteria included:

1. Fellowships and special training
2. Review of board certification
3. Review of New Jersey state board license and disciplinary actions
4. American Society of Plastic Surgery status
5. Years in practice
6. Malpractice actions
7. Number of procedures performed
8. Academic positions held
9. Procedure-specific positions held
10. History of *New Jersey Monthly* Top Doctor awards
11. Articles, chapters, books written related to a procedure
12. Lectures given related to a procedure
13. Online patient reviews
14. Review of before and after photos for each procedure
15. Website review
